Made From Actual Stone!

Tips & Tricks!

IMPORTANT:
Add “Q” for quarter sheet (12" x 24") or “H” for half sheet (24" x 24") to the end of the part number when ordering. Part number as listed indicates “Full” sheet.

Stonelite Sealer

Forms a protective coating on the surface of the stone that repels water, oils, and other staining liquids before they penetrate deeply into the pores of the stone.

Black Smooth Leatherette Sheet Stock

L UV DTF

This smooth black leatherette is ideal for UV printing thanks to its high-contrast surface, which makes colors appear vibrant and sharp – especially with a white under base. Its smooth, uniform finish allows for crisp detail and clean edges.

Case Qty: **10**

Kota Pro™ Adhesive
LLA602 - 12" x 24"

No Adhesive
LLS602 - 12" x 24"

THICKNESS
1.70mm

Features & Benefits:

- **High-contrast surface:**
  Deep black background enhances color vibrancy, especially with a white underbase while UV printing, less contrast when laser engraving. Offers the best background for clear prints for popular background pattern building.
- **Smooth, uniform finish:**
  Smooth base for texture builds while direct UV printing and a smooth surface for DTF to attach to and not take the shape of deep valleys or textures you find on other lines of Leatherette. Allows for sharp detail, crisp lines, and consistent ink coverage.
- **Supports full-color printing:**
  Ideal for gradients, photos, and detailed graphics.

Natural Cotton Canvas Totes

Paint Protection Film: Clear

Supreme Defense™

This PPF is a high quality polyurethane film that helps to prevent damage from a range of challenges such as stone chips, road debris, insect stains and weathering – all without degrading the original paint finish, thanks to the self-healing top-coat. The film is easy to apply and ultra-clear to ensure excellent aesthetics.

DURABILITY: 10 Years - Gloss
7 Years - Matte
FILM THICKNESS: 8.0 mil
FINISH: Gloss
Matte

ADHESIVE: Clear, acrylic, permanent
LINER: Polyester
INSTALLATION: WET APPLY

Rapid Prep Surface Prep

Rapid Prep is a water based solvent that is a safe and super effective deep cleaner, ideal for surface prep. It is designed to work in one minute to remove wax, silicone, grease, oil and other surface build-ups. For best vinyl adhesion results, apply Rapid Prep to substrate before application.

RP-64005-9
Rapid Prep
Size: 5 Gallon

Rapid Tac II Application Fluid

Rapid Tac II was designed for "Premium Cast" films and promotes faster bonding than the Original Rapid Tac product. This application fluid is ideal for cold weather and glass applications. In warmer conditions, always pretest because Rapid Tac II may bond too quickly with premium cast films.

RT2-64007-3
Rapid Tac II
Size: 5 Gallon

Laminating / Transfer Adhesive

3M™ 467MP High-Performance Tape

3M Authorized Distributor

The 200MP adhesive used on this tape is initially repositionable then builds to a high ultimate bond strength. The bond of 467MP will hold securely after exposure to harsh environments and splashes of organic solvents, salt water, cleaning solutions, germicidals, disinfectants, gasoline, oil, Freon TF, sodium chloride solution, mild acids and alkalis. 467MP tape has excellent die-cuttability and excellent processability with roll laminating.

THICKNESS: 2.0 mil
